# Super Bowl foes team up in Southwest Asia

**By Master Sgt. Greg Bade**

4406th Operations Group (Provisional) Public Affairs

**ARABIAN GULF REGION** — When the Denver Broncos and Green Bay Packers oppose each other in the Super Bowl Jan. 25, F-16s from Colorado and Wisconsin Air National Guard units deployed to Southwest Asia will fly in formation over southern Iraq.

While the two units team up to enforce the U.N.-sanctioned no-fly zone in southern Iraq, on the ground they have broken formation to support the Super Bowl teams from their home states.

**An F-16 Fighting Falcon from the 115th Fighter Wing flies near its home base at Truax Field in Madison, Wis. This unit is currently serving with the 140th Wing from Buckley Air National Guard Base from Aurora, Colo., at a deployed location in Southwest Asia. Although they work together, they've broken formation to support the Super Bowl teams from their home states.**

The aircraft belong to the 115th Fighter Wing, based at Truax Field in Madison, Wis., and the 140th Wing, from Buckley Air National Guard Base in Aurora, Colo. The two wings are sharing aircraft and support equipment as part of a deployment sched-

ule that rotates five F-16 Guard units for successive 30-day deployments here to support Operation Southern Watch.

The 115th FW 'Badgers,' the first of the five in the rotation, arrived here in mid-December with four of its own F-16C/D aircraft, and two of the 140th Wing's F-16C/D Fighting Falcons. Guard units frequently combine resources for these kinds of deployments, according to Master Sgt. Marc Connolly, first sergeant for the 140th Wing Detachment.

"It's a common arrange-

**See Team up**

**Page 3**

## Team up

*from Page 2*

ment for us to bring another Guard unit's aircraft and equipment on the front end of a deployment, and then leave our aircraft behind as they replace us to continue the rotation cycle," Connolly said.

Once here, the Air National Guard units integrate with active duty units and are aligned under the 4406th Operations Group (Provisional). It is an arrangement that validates the "Total Force Concept," according to Col. Robert Awtrey, 4406th OG(P) commander.

"Guard units have been deploying to the region for over a year now, and the expertise the Madison and Buckley folks demonstrate is representative of what I've seen from every Guard unit," Awtrey said.

"What we do here clearly shows active and reserve units operate together at a very high level of effectiveness. We are full partners in carrying out the Air Force's mission in this region."

As the 140th Wing's "Cougars" began arriving Jan. 11 to replace the Wisconsin unit, members from both units kept one eye on rising tensions over U.N. inspection teams in Iraq and one eye on the American and National Football Conference Championship games. Predictions and boasts began flying in earnest when the Broncos and Packers emerged victorious to advance to the Super Bowl.

"Their team is 0-4 in Super Bowls and they've got an old quarterback," said Lt. Col. Bob Fritsch, 115th FW Detachment commander, referring to the Broncos. "Our team is 3-0 in the big show and has a young gun for a quarterback. I predict the Packers

will win 35-24."

Shaking his head and frowning his disagreement across the room from Fritsch in the fighter detachment operations center, 140th Wing acting detachment commander Lt. Col. Andy King smiled and predicted the Packers' Super Bowl record will be 3-1 when they leave San Diego.

"(John) Elway (Broncos quarterback) is finally going to get his ring because he has the one thing this time he didn't have during his previous Super Bowls," said King. "That's a great runner in the backfield. Broncos, 17-10."

One thing the two commanders have complete agreement on is the performance of their units as control of the six F-16s passes from the

*See Team up*  
*Page 4*

## Team up

*from Page 3*

Badgers to the Cougars.

"We're handing off to an absolutely first-class organization with some of the finest professionals in the business," said Fritsch. "I'm confident the mission we've been performing the past 30 days will continue without skipping a beat as the 140th takes over." (AFNS, courtesy of ACC News Service)

## News briefs

### J-2 achieves CFC goal

The J-2 Joint Staff Intelligence Directorate surpassed its goal of \$38,000 for the Combined Federal Campaign -- which they contribute through the Defense Intelligence Agency.

The directorate's personnel donated \$45,000 or 119 percent of its goal.

### JSEC elections

The Joint Staff Enlisted Council holds elections 10 a.m. today in Room 2E715A. Joint Staff enlisted members are encouraged to vote for the new president, vice president, secretary and treasurer.

### Needy pet

A three-year old Cocker Spaniel, buff and tan, needs an adult home. Its previous owner suffered from Alzheimers. The dog fears abandonment, but will come out of his shell

with a little tender-loving care. If interested, call Martine de Lizza at (703) 379-0353.

### African American History

The Department of Defense theme for African American History Month is "50 Years on the Road to Equal Opportunity: A Celebration of Executive Orders 9980 and 9981." These orders integrated the armed services. The DoD observance is 2 to 3 p.m. Feb. 5 at the Pentagon Auditorium in Room 5A1070.

### Official data only

The Joint Staff's top secret network allows people to store limited amounts of official data. Officials request all personnel to review and delete unwanted files from the "P" drive. This includes non-essential .WAV files or files not used for more than six months. Do not delete unfamiliar files. Call a computer administrator for more information.

# America commemorates first successful satellite launch

By 1st Lt. Ken Hoffman  
45th Space Wing Public Affairs

C A P E CANAVERAL AIR STATION, Fla. — Forty years ago on Jan. 31 at 10:48 p.m. EST, the United States celebrated its first successful satellite launch into space, forever changing America's means of communicating, navigating, monitoring weather and exploring the universe.

"It's amazing to think in early 1958

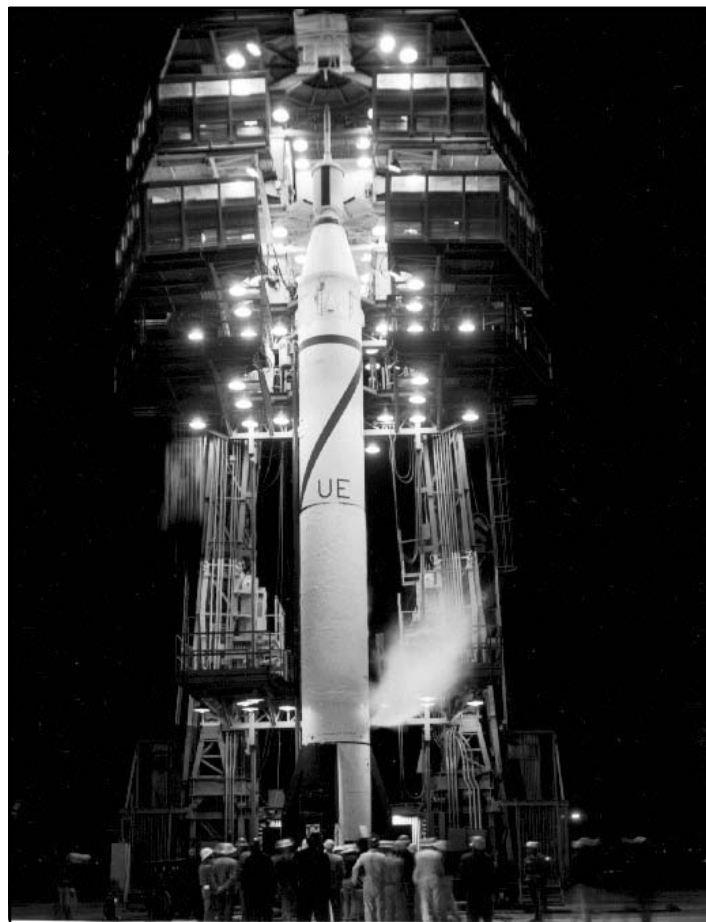

America had just one satellite in orbit. Today, if you include other nations, there are more than 500 satellites in orbit which will be joined by another 1,200 to 1,500 in the next decade," said Brig. Gen. Randy Starbuck, 45th Space Wing Commander. "Many of those military and commercial satellites, like Explorer I, were put there by the Air Force, Boeing, Lockheed Martin and NASA from right here at Cape Canaveral

Air Station," he added.

The historic 1958 launch catapulted America into a space race led by the Russians. Four months before, Soviet scientists had launched Sputnik 1 and followed a month later with the dog-carrying Sputnik 2.

The launch vehicle, a U.S. Army modified Redstone booster known as the Jupiter C, stood 70-

See **Satellite**  
Page 6

Courtesy photo

Explorer I, shown here before the launch, was America's first successful satellite.

## Satellite

*from Page 5*

feet tall, was just under six feet in diameter and weighed 68,000 pounds. The single main engine could develop a thrust of 83,000 pounds using liquid oxygen as an oxidizer and a hydrazine-based fuel called hydyne.

The satellite launch came after two one-day delays due to high winds. Crammed into its tiny payload section, Explorer I carried instruments to study the space environment and two radio transmitters for sending information back to earth.

Sensitive microphones in the forward section mea-

---

**Crammed into its tiny payload section, Explorer I carried instruments to study the space environment and two radio transmitters for sending information back to earth.**

---

sured micrometeorite impacts. Temperature sensors measured payload and hull temperatures, and helped evaluate the application of surface coatings for passive temperature control.

The most important scientific instrument was a Geiger Counter package designed by Dr. James Van Allen of the University of Iowa to measure the intensity of cosmic ray radiation around the earth. This region is now known as the Van Allen Radiation Belt.

The satellite made

more than 58,000 orbits around the earth, traveling at speeds of more than 17,000 mph. Explorer I ceased transmission of data on May 23, 1958 when its batteries died, but remained in orbit for more than 12 years. It made a fiery reentry over the Pacific Ocean on March 31, 1970.

"In 1958 it was Explorer I; today we have Cassini on its way to Saturn. And, as we look at the future it is important to realize that commercial and military developments of

space are vital to our economy and national security," said Starbuck. "Cape Canaveral Air Station is a superb example of the Air Force moving into the 21st Century guided by our vision of being the world's premier gateway to space. We are a critical component of a lean but effective national defense force.

"Currently, the United States alone has more than 200 active commercial, civil, and military satellites on orbit, contributing to our national defense and delivering services ranging from entertainment, to education, to weather reports, to global navigation, and much more that many of us take for granted every day," he said.

# **Marine Marathon officials announce 1998 Poster Contest**

By Staff Sgt. Yvonne Reed,  
USMC

QUANTICO MARINE CORPS BASE, Va. — The Marine Corps Marathon invites all active and reserve Marines, Sailors, and civilians serving with Marine Corps to enter the poster contest for its 23rd anniversary.

The 1998 Marine

Corps Marathon will be held in Washington, D.C., Oct. 25. Attracting more than 18,000 runners each year, the Marine Corps Marathon is one of the Corps' largest community relations events. Its goal is to celebrate the Marine heritage and to promote physical fitness throughout the community.

Traditionally, the winning entry is used as the

primary marketing tool for the Marine Corps Marathon. It is also used as the design for runners shirts, as well as volunteer T-shirts and various other memorabilia.

The following contest rules apply:

- All entries must be received prior to Feb. 15.

- The final poster dimensions will be 18 inches by 24 inches. Smaller sizes may be submitted, but only those proportionate to 18 inches by 24 inches will be judged.

- Entries must include: the words "23rd Marine Corps Marathon,"

"The People's Marathon" and "For race information call **1-800-RUN-USMC**"; the date "October

25, 1998"; and the Marathon logo (available on the homepage at <http://ISSB-WWW1.QUANTICO.usmcmil/marathon/>).

The Marine Corps emblem may be used in the design.

To enter, send original artwork to **Marine Corps Marathon, P.O. Box 188, Quantico, VA 22134-0188**. The contest will be judged and winner will be announced by Feb. 20. All artwork will become property of the Marine Corps Marathon and will not be returned. The winner will receive two round-trip airline tickets for travel within the Continental United States (travel must be completed by Oct. 31, 1998).

# Can Elway hold the 'Pack' back on Super Sunday?

■ ***This could be the last chance for the future Hall-of-Fame quarterback to win championship ring***

By Staff Sgt. Lee Roberts, USAF  
J-Scope Editor

America loves football. This Sunday is the 32nd edition of the Super Bowl, one of the highest rated television extravaganzas of the year.

This year pits the Green Bay Packers against the Denver Broncos, and a familiar face returns to the big game. His name is John Elway.

The Broncos' quarter-

**John Elway is pictured here on his 1984 rookie card. He plays in his fourth Super Bowl this Sunday.**

back last played in the Super Bowl 10 years ago. He's played in three Super Bowls since he entered the NFL in the 1983-84 season. However, he's never won

the big game. Still, he's one of the most prolific passers of all time.

Elway and the Broncos got to the Super Bowl having won all their playoff games as a wild card team. It was a tough road getting to San Diego, Calif., the site of this year's Super Bowl.

So now that Elway's back in the championship game, can he finally get the "loser" monkey off his back?

Well, Denver finally has a running game with their star running back Terrell Davis. And their defense is also much improved.

I'm personally pulling for Elway to finally win his first championship ring.

But a sports-minded person would be a fool to pick Denver. Green Bay is simply too strong of a team. They've won three Super Bowls... including last year's game against New England. I believe they will win the game.

My prediction:

**Green Bay 30  
Denver 17**

Still, the game must be played. So I decided to ask others on the Joint Staff which team they think will win the Super Bowl.

**See Super Bowl**

**Page 9**

## Super Bowl

*from Page 8*

Here are some more Super predictions on the big game from various Joint Staff members.

Quote: "Green Bay wins because Brett Favre is a three-time MVP and the defense is awesome!"

**Army Maj. Darlene Freeman**

**J-2 Joint Staff Intelligence Directorate Administrative Support Division**

**Green Bay 24  
Denver 10**

Quote: "The Packers are 3-0 in previous Super Bowls; and with their dominate defense, they are sure to win this one. Go Packers!"

**Army Master Sgt. Rich Hill**

**Office of the Chairman of the Joint Chiefs of Staff**

**Denver 26  
Green Bay 22**

Quote: "This will be Elway's last game."

**Army Lt. Col. Dave Hall**

**J-1 Manpower and Personnel Directorate Personnel Readiness Division**

**Denver 27  
Green Bay 24**

Quote: "The Packers are way overconfident. The Bron-

cos defense will step up and Elway is the man!"

**Navy Cmdr. Tim Hanley**

## SNA scholarship

The deadline for submitting an application for the Surface Navy Associations's Vice Adm. Robert L. Walters Scholarship is Feb. 1.

Scholarships are available to active duty members, their spouse and dependents who are pursuing their first undergraduate degree. Selection of recipients is based on academic achievement, extracurricular activities and community service.

For additional information and an application, contact the Surface Navy Association, 7205 Burtonwood Drive, Alexandria, Va., 22307-2021, or call (703) 765-SHIP or 1-

800-NAVY-SNA, or FAX at (703) 765-5162, or by E-mail at [navysna@aol.com](mailto:navysna@aol.com).

## Market yourself

There is a free two-hour professional lecture from 9 to 11:30 a.m. Feb. 12 in Room 1E801 for officers and NCOs who plan to leave the service in the next one to five years.

The Joint Staff Enlisted Council is sponsoring the event where people can learn about planning a job search; filling out resumes, cover letters and broadcast letters; networking the job market, preparing for interviews, salary negotiations and dealing with rejection.

Retired Army Col. Jerry Crews is the lecturer.

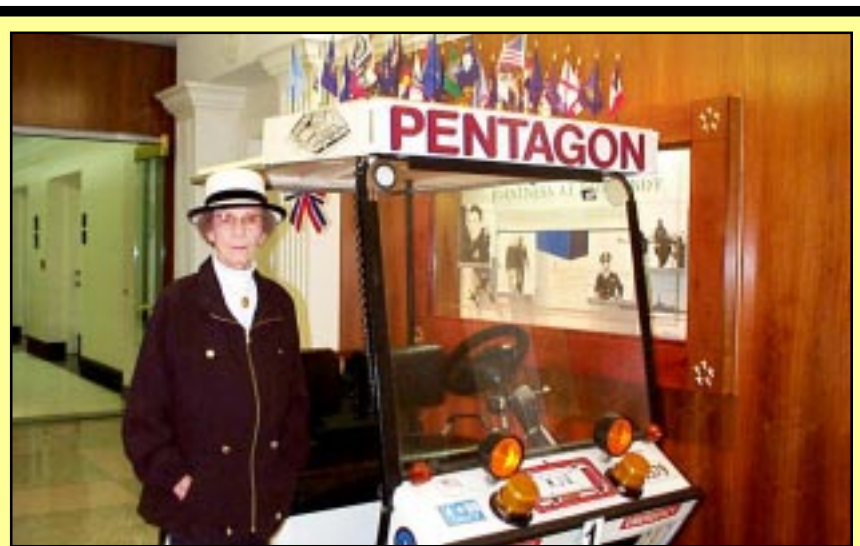

Photo by Air Force Staff Sgt. Lee Roberts

## Reaching a milestone

**Marian J. Bailey, a familiar Pentagon public information specialist, poses in the Bradley Corridor Thursday. It was her 56th anniversary at the Pentagon.**

He served 29 years on active duty, and has done extensive research, writing, and lecturing about programs affecting military personnel transitioning to

the civilian work force.

Reserve a seat at the event by calling Army Master Sgt. Cheryl N. Morris at 695-2000 by Feb. 10. There is room for 80 people.

### Promotion ceremony

Gen. Joseph W. Ralston (Left), vice chairman of the Joint Chiefs of Staff, presents the Joint Service Achievement Medal to Air Force Tech. Sgt. Frank Rodriguez during an award ceremony Jan. 14 at the general's office. Rodriguez, an enlisted aide to Ralston, received the award for serving as a chef at a number of important official functions and his participation in a number of self-help projects reducing expenditures.

## HOMETOWN NEWS RELEASES

If you are recognized for winning awards, promotions, transfers, education and training achievements, and participation in military exercises, fill out a Hometown News Release.

Your friends and family back home will appreciate reading about your accomplishments. All active-duty and civilian workers are eligible and the process

is easy. Army and Air Force members can fill out a HNR by obtaining a copy of DD Form 2266 or using the computer generated version of Delrina Form Flow. Also, Navy members can fill out a NAVSO 5724/1 form.

Participants should send the accomplished form to Public Affairs with attached copy of any award citation.

### J-Scope Classified Ads

are available without regard to race, color, religion, sex, national origin, age, marital status, or any other nonmerit factor of the user or patron. Classifieds are printed in this publication in accordance with DoD Instruction 5120.4.

### Submitting Classified Ads

Joint Staff active duty and civilian personnel are eligible to advertise a one-time sale of personal items, no longer than 20 words in length.

Only one submission is allowed per family per week and should include sponsor's name, duty section, duty and home phone number. However, the ads only include a person's home phone number.

Please indicate what section the ad should be in -- autos or boats for sale, miscellaneous, yard or garage sale, car pool, houses for sale, or roommate wanted. Send ad submissions via Email to the "J-Scope" address by 4:30 p.m. Tuesday each week, or drop off at Public Affairs, room 2E857. Ads will run only once and must be renewed by e-mail each week.

## Real estate

### Lake property

Lake property -- one acre at Lake Anna, Va. Access to lake, boat slip included, perc-ed. Located in gated community with private beach and pavilions. Assessed \$17,000, asking \$15,500. Call (703) 281-5397.

### Rent a room

Rent a room in a brand new single family home in Stafford, Va. Price is \$400 per month with a six-month or one-year lease agreement. Rent includes utilities, bathroom, and use of washer and dryer, two-car garage and storage area in basement. No smoking. Call (540) 659-7675 for more information.
